## TIME TO RETHINK

One of my favourite memories as a small child was going to a sugarbush and watching the steam rising from the huge vats of freshly tapped sap. But the best part was when they poured the new syrup onto the snow, making it into instant candy as it solidified. A science lesson and a treat, all in one outing.

This year's tapping season is already underway, so turn to page 21 for some maple syrup ideas.

Spring is also a good time to rethink various aspects of our lives. See inside for the latest trends to invigorate your kitchen. Find tips to deal with the different types of clutter in your home. Learn to avoid an unexpected surprise in your investment portfolio. And try our make-ahead recipe for a relaxing breakfast.

It's the best time of year to think about renewal!
