Vintage tones

Got limited space in your hall closet, a pretty coat rack at your entry not only makes a statement but also helps create some breathing room while keeping things tidy.

and striking **white** and **black** accents bring us into Fall

Freshen up your bed for fall with a vintage inspired set of pearl embroidered sheets. The two rows of satin stitched dots devote a subtle hint of color with an antique, homey and classic twist. Test this look in a master suite, a guestroom or even your cottage.

It's Fall again, and as we hang on to summer we also search for warmer inspirations to channel us through the beginning of a long chilly season. Vintage and repurposed is all the hype nowadays, the feeling of bringing back some of those items that are reminiscent of our passed generations. Look for warm vintage tones to keep you warm this Fall. Striking accents of black and white are also hip, stylish and take us back to retro and glamour-chic looks. CL

Natural wood tables are now seen just about everywhere, from traditional to modern shops. Whatever your look is, the raw wood table makes a striking statement! From rustic crafted white oak tops to slabs made from Suar wood imported from Indonesia, the options are endless and the looks are rich and worldly.
